

PERSPECTIVES

Below is the list of perspectives that you need to use when you answer any question or topic. You do not need to incorporate all of them BUT at least four should be used. Notice how they are identified individually. They can be combined with any perspective to give you a better grasp on what you are trying to convey. Do not forget to use ISPICE in your answer. ISPICE are the examples needed to prove the Perspectives that have been chosen are accurate.

Remember you should not use the term Progress vs. Equity. **NEVER PUT ____ vs. ____ !!!** You need to identify the topic and determine whether the topic is showing _____ or not in one sentence and the next sentence should discuss if the outcome was _____.

Example - Topic is an example of (choose perspective) because (give explanation).

DON'T SAY ISPICE!!! Choose example shows (choose one of the concepts of ISPICE) and then explain how (can possibly use Perspectives when discussing ISPICE).

Higher Thinking - Combine ISPICE with Perspectives - (Topic or example) is showing **social progress** because the topic or example is (give explanation).

The idea of slavery allowed for **economic progress** for the Europeans since Africans would be seen as property and enslaved for life. Their off spring would be born into slavery and soon their African culture and way of life would be lost. The Europeans were liberal towards the idea of slavery because it strengthened the European economy. The Africans who would be enslaved would not be treated fairly and would never progress within this unjust system.

List of Perspectives.

1. Progress
2. Emotion
3. Equity
4. Logic
5. Debatable (grey)
6. Spiritual
7. By any means necessary (Malcolm)
Find a word or phrase to show this concept.
8. Want
9. Placed Limitations (Martin) *Find a word or phrase to show this concept.*
10. Wrong
11. Liberal
12. Conservative
13. Right
14. Need
15. Secular
